

CLASSIC VINYL BEATS

MJ DORIAN

VOLUME 1

Classic Vinyl Beats is a collection of some the finest beats known to man. These beats have been lovingly sampled from the original vinyl by beat artist / producer : MJ Dorian.

Getting Started :

1) Unzip the files

2A) Reason Users : open a new session, and 'right-click' then select 'create an instrument', find the patch you'd like to try and audition it in your session. (You can also open up a patch directly by clicking Dr.Rex player's 'folder' icon.) I recommend first trying the beats at their original indicated tempos.

2B) Wave Files : All wave files are ready to loop in any DAW or drum machine. Each loop was carefully tailored to have distinct down beat points while still maintaining the elusive groove.

Alright, let's rock!
